

Harford County SKYWARN Net Preamble

SPC/NWS Watch/Bulletin Issue

QST, QST, QST.....

This is _____ with the Harford County SKYWARN Net.

The Storm Prediction Center/National Weather Service has issued a _____ Watch for our area until ____:____

(Read NWS/SPC Watch/Bulletin)

Conditions are favorable for severe weather in and close to our area.

The Harford County SKYWARN Net is now in Standby.
Harford County SKYWARN Spotters should monitor this frequency for further updates and instructions.

Should the threat of severe weather develop across our area this net will be fully activated.

Once again the Storm Prediction Center/National Weather Service has issued a _____ Watch for our area until ____:____

This is _____ with the Harford County SKYWARN Net now returning the repeater to normal use.

Harford County SKYWARN Net Activation

QST, QST, QST.....

This is _____ with the Harford County SKYWARN Net.

The Net is now formal at this time and we ask that if you do not have pertinent Weather/Emergency Information to hold all other traffic at this time.

My name is _____ and I will be serving as Net Control Operator.

This is a directed net, so please address all inquiries and/or storm reports to net control.

I will now take check-ins for Harford County SKYWARN Spotters.
Please give your callsign phonetically and slowly along with your name and location.

Once again, this is _____ with the Harford County SKYWARN Net.

The Net is now formal at this time and we ask that if you do not have pertinent Weather/Emergency Information to hold all other traffic at this time.

Harford County SKYWARN Net Deactivation

This is _____ with the Harford County SKYWARN Net.

At this time the threat of severe weather has diminished across our area and the Harford County SKYWARN Net will now be standing down operations.

In the event that severe weather conditions redevelop in our area, the Harford County SKYWARN Net will be reactivated.

I now call for any finals, questions, or storm reports _____

I want to thank all Harford County SKYWARN Spotters for their cooperation and support during this event.

This is _____ with the Harford County SKYWARN Net now returning the repeater to normal use.

Harford County SKYWARN Weekly Weather Net

QST, QST, QST.....
